

WHERE AI MEETS REALITY

A practitioner first, a *speaker* and *workshopper* second.

A decade of building at the frontier of AI and healthcare — not just talking about it. Sina turns the noise around emerging technology into clear, executive-ready strategy your teams can actually act on.

WHAT SINA DELIVERS

Keynotes

What your company should do with AI & emerging tech · The intersection of AI and healthcare · Philosophy & ethics of AI · The future of work and meaning · Intrapreneurship & innovation · Medical robotics and the future of surgery.

Workshops

AI strategy · Use-case discovery · Responsible AI · GenAI foundations · Data readiness for AI · Building an AI-literate organisation · Build vs. buy vs. partner.

Advisory

Practical, grounded guidance for leadership teams navigating AI adoption — bespoke topics available on request.

"Sina is one of the top inquisitive voices and thought-leaders in the AI community."

ALICE ZIMMERMAN · GOOGLE

WHY SINA

- **He's built it.** Led the commercialisation of an AI-based device, the UK's first orthopedic robot.
- **Credibility across worlds.** Qualified Biomedical Scientist and MBA — fluent in both the tech and the boardroom.
- **Cuts the hype.** Grounded, practical sessions that leave teams with real use-cases, not buzzwords.
- **Captivates the room.** Consistently praised as a charismatic speaker who makes each person feel spoken to directly.
